FUND SUMMARY

QUALITY DIVIDEND FUND

Investment Objective

The Quality Dividend Fund (the "Fund") seeks to achieve current income and long-term growth of capital.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.** You may qualify for sales charge discounts with respect to Class A shares if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial professional and in the "Purchase of Shares" section on page 14 of the Fund's Prospectus and in the "Purchase, Redemption and Pricing of Shares" section on page 36 of the Fund's Statement of Additional Information.

Shareholder Fees (fees paid directly from your investment):

	Class A	Class C	Institutional Class
Maximum Sales Charge (Load) imposed on Purchases (as a percentage of offering price)	5.75%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lower of the original purchase price or the net asset value at redemption) . . .	1.00% ¹	1.00% ²	None
Redemption Fee (as a percentage of amount redeemed within 60 days of purchase).	1.00%	1.00%	1.00%

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment):

Management Fees.	0.60%	0.60%	0.60%
Distribution and/or Service (Rule 12b-1) Fees	0.25%	1.00%	None
Other Expenses.	0.72%	0.72%	0.72%
Total Annual Fund Operating Expenses³.	1.57%	2.32%	1.32%
Fee Waiver and/or Expense Reimbursement ³	(0.33)%	(0.33)%	(0.33)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement³.	1.24%	1.99%	0.99%

¹ A 1.00% contingent deferred sales charge ("CDSC") may apply to investments of \$1 million or more of Class A shares (and therefore no initial sales charge was paid by the shareholder) when shares are redeemed within 12 months after initial purchase. The CDSC shall not apply to those purchases of Class A shares of \$1 million or more where the selling broker dealer was not paid a commission.

² A 1.00% CDSC will be assessed when Class C shares are redeemed within 12 months after initial purchase; however, the CDSC shall not apply to the purchases of Class C shares where the selling broker dealer was not paid a commission at the time of purchase.

³ EquityCompass Investment Management, LLC ("EquityCompass" or the "Adviser") has contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of the Fund to the extent necessary to ensure that the Fund's total operating expenses (excluding taxes, fees and expenses attributable to a distribution or service plan adopted by FundVantage Trust (the "Trust"), "Acquired Fund Fees and Expenses," dividend and interest expense on securities sold short, interest, extraordinary items and brokerage commissions) do not exceed 0.99% of average daily net assets of the Fund (the "Expense Limitation"). The Expense Limitation will remain in effect until August 31, 2025, unless the Board of Trustees of the Trust approves its earlier termination. The Adviser is entitled to recover, subject to approval by the Board of Trustees, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees

it waived and Fund expenses it paid to the extent the total annual fund operating expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless the Fund's expenses are below the Expense Limitation amount.

Expense Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund's Class A, Class C and Institutional Class shares for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same (reflecting any contractual fee waivers). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A	\$794	\$1,012	\$1,352	\$2,309
Class C	\$302	\$693	\$1,210	\$2,631
Institutional Class	\$101	\$386	\$692	\$1,561

You would pay the following expenses if you did not redeem your shares:

	1 Year	3 Years	5 Years	10 Years
Class A	\$694	\$1,012	\$1,352	\$2,309
Class C	\$202	\$693	\$1,210	\$2,631
Institutional Class	\$101	\$386	\$692	\$1,561

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 21% of the average value of its portfolio.

Summary of Principal Investment Strategies

The Fund primarily invests in a diversified portfolio of income-producing (dividend-paying) equity securities of U.S. and foreign companies. The Fund invests principally in common stocks, but its equity investments may also include real estate investment trusts ("REITs"), and other investment companies (including mutual funds and exchange-traded funds ("ETFs")). The Fund may, from time to time, write covered call options on the equity positions it holds to generate additional income from premiums earned on such options. The Fund's equity investments may also include indirect exposure to foreign securities through American Depositary Receipts ("ADRs") and master limited partnerships ("MLPs"), although MLP investments will at no time exceed 20% of the Fund's net assets (measured at the time of purchase).

The Adviser combines quantitative and fundamental analysis with risk management in identifying investment opportunities and constructing the Fund's portfolio. The Fund may invest in equity securities issued by companies of different capitalization ranges, but will typically focus on larger companies. In selecting securities, the Adviser first uses proprietary quantitative models to identify and rank stocks based on several characteristics, including quality (of financial condition and creation of shareholder value), relative value (based on fundamental metrics and analyst estimates) and income-generation potential (measured in terms of dividend, earnings, yield and payout ratio). The Adviser then determines the most attractive of the higher ranked securities based on their current and future prospects for income generation as well as long-term price appreciation. The Adviser considers a number of factors in this process, including history of dividend payment and growth, current dividend policy, and relevant corporate events.

Finally, in constructing the Fund's portfolio, the Adviser manages risk by diversifying across holdings and S&P economic sectors ("Sectors"), seeking to limit the potential adverse impact from any one stock or Sector. The Fund will generally hold equal-weighted positions and be diversified across Sectors and generally no more than 20% of the Fund's net assets (measured at the time of investment) will be exposed to any one Sector. Notwithstanding this limitation, the Fund may indirectly exceed this 20% Sector exposure limit by virtue of investments in MLPs and other investment companies that may be more heavily concentrated in a particular Sector.

The Adviser monitors the Fund's holdings and may consider selling a security when valuation becomes excessive, there is deterioration in the issuer's relative attractiveness, financial position or fundamental prospects, or the Adviser believes there are more attractive investment opportunities elsewhere.

Summary of Principal Risks

The Fund is subject to the principal risks summarized below. The order of the below risk factors does not indicate the significance of any particular risk factor and the relative significance of each risk below may change over time. These risks could adversely affect the Fund's net asset value ("NAV"), yield and total return. It is possible to lose money by investing in the Fund.

- **Common Stock Risk:** Because the Fund normally invests a substantial portion of its assets in common stocks, the value of the Fund's portfolio will be affected by changes in stock markets. Common stock represents an equity (ownership) interest in a company or other entity. At times, the stock markets can be volatile, and stock prices can change drastically. This market risk will affect the Fund's net asset value, which will fluctuate as the values of the Fund's portfolio securities and other assets change. Not all stock prices change uniformly or at the same time, and not all stock markets move in the same direction at the same time. In addition, other factors can adversely affect a particular stock's price (for example, poor management decisions, poor earnings reports by an issuer, loss of major customers, competition, major litigation against an issuer, or changes in government regulations affecting an industry). Not all of these factors nor their effects can be predicted.
- **Changing Distribution Levels Risk:** Although the Fund will invest primarily in income-producing equities, the amount of income that the Fund will receive will vary and the Fund cannot guarantee any particular level of distributions. Companies that have paid regular dividends to shareholders may decrease or eliminate dividend payments in the future. A decrease in dividend payments by an issuer may result in the Fund receiving less income.
- **Covered Call Options Risk:** As the seller (writer) of a covered call option, the Fund assumes the risk of a decline in the market price of the underlying security below the purchase price of the underlying security less the premium received, and gives up the opportunity for gain on the underlying security above the exercise price of the option. Option premiums are treated as short-term capital gains and when distributed to shareholders, are usually taxable as ordinary income, which may have a higher tax rate than long-term capital gains for shareholders holding Fund shares in a taxable account. Fund assets covering written options cannot be sold while the option is outstanding, unless replaced with similar assets. As a result, there is a possibility that segregation of a large percentage of the Fund's assets to cover written options could affect its portfolio management as well as the ability of the Fund to meet redemption requests or other current obligations. Unusual market conditions or the lack of a ready market for any particular option at a specific time may reduce the effectiveness of the Fund's option strategy, and for these and other reasons the Fund's option strategies may not achieve the desired result.
- **Dividend Paying Stock Risk:** A decrease in the dividend payments by an issuer may result in a decrease in the value of the security. A fund pursuing a dividend-oriented investment strategy may at times underperform other funds that invest more broadly or that have different investment styles.
- **Equity Securities Risk:** Stock markets are volatile. The price of equity securities fluctuates based on changes in a company's financial condition and overall market and economic conditions.
- **Foreign Securities Risk:** The risk that investing in foreign (non-U.S.) securities may result in the Fund experiencing more rapid and extreme changes in value than a fund that invests exclusively in securities of U.S. companies, due to less liquid markets, and adverse economic, political, diplomatic, financial, and regulatory factors. Foreign governments also may impose limits on investment and repatriation and impose taxes. Any of these events could cause the value of the Fund's investments to decline.
- **REIT Risk:** The securities of REITs may involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements because of interest rate changes, geographic or industry concentration, economic conditions and other factors. Non-listed REIT securities may lack sufficient liquidity to enable the Fund to sell them at an advantageous time or to minimize a loss. Distributions from REITs may include a return of capital. A REIT that does not qualify as a REIT under the Internal Revenue Code will pay taxes on its earnings, which will reduce the dividends paid by the REIT to the Fund. Some REITs are highly leveraged, which may increase the risk of loss.

- **Management Risk:** As with any managed fund, the Adviser may not be successful in selecting the best-performing securities or investment techniques, and the Fund's performance may lag behind that of similar funds. In particular, the Fund faces the risk of loss as a result of mis-estimation or other errors by the Adviser in its fundamental analysis regarding the companies in which the Fund invests. The Adviser may also miss out on an investment opportunity because the assets necessary to take advantage of the opportunity are tied up in other investments, potentially including investments that may not perform as well as the investment opportunity.
- **Market Risk:** The values of, and/or the income generated by, securities held by the Fund may decline due to factors that are specifically related to a particular company, as well as general market conditions, such as real or perceived adverse economic or political conditions, inflation rates and/or investor expectations concerning such rates, changes in interest rates, or adverse investor sentiment generally. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments. Geopolitical events, including terrorism, tensions or open conflict between nations, or political or economic dysfunction within some nations that are global economic powers, may lead to instability in world economies and markets, may lead to increased market volatility, and may have adverse long-term effects. Events such as environmental and natural disasters, public health crises (such as epidemics and pandemics), social unrest, and cybersecurity incidents, and governments' reactions to such events, could cause uncertainty in the markets and may adversely affect the performance of the global economy.
- **Master Limited Partnership Risk:** MLPs are partnerships which are publicly traded and listed on a national security exchange. MLPs are interest-rate sensitive investments that may trade in lower volumes and be subject to abrupt or erratic price movements and may involve less control by outside investors and potential conflicts of interest among an MLP and its general partner. MLPs are also subject to different tax rules than other publicly-traded equity securities that may adversely impact the Fund. MLPs primarily are engaged in energy and natural resource sectors, which makes them sensitive to negative developments in those sectors.
- **Model and Data Risk:** Quantitative models and market data upon which the Adviser relies may prove to be incorrect or incomplete, potentially resulting in lower investment performance or losses to the Fund.
- **Sector Risk:** Although the Fund may not "concentrate" (invest 25% or more of its net assets) in any industry, its investments may from time to time focus on one or more economic sectors. To the extent that it does so, developments affecting companies in that sector or sectors will likely have a magnified effect on the Fund's NAV and total returns and may subject the Fund to greater risk of loss. Accordingly, the Fund could be considerably more volatile than a broad-based market index or other mutual funds that are diversified across a greater number of securities and sectors.

Performance Information

The bar chart and table shown below provide some indication of the risks and volatility of investing in the Fund by showing the Fund's Class A shares performance for the past ten calendar years and by showing how the Fund's average annual returns for one year, five year, 10 year and since inception periods compared with a broad-based securities market index that reflects the performance of the overall market applicable to the Fund and an additional index that represents the market sectors in which the Fund primarily invests. The maximum front-end sales charge is not reflected in the bar chart or the calendar year-to-date returns; if the front-end sales charge were reflected, the bar chart and the calendar year-to-date returns would be less than those shown. Performance reflects contractual fee waivers in effect. If fee waivers were not in place, performance would be reduced. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at www.equitycompass.com or by calling the Fund toll-free at (888) 201-5799.

Calendar Year-to-Date Total Return as of June 30, 2024: 5.09%

During the periods shown in the chart

Best Quarter	Worst Quarter

Quality Dividend Fund — Class C Shares
Average Annual Total Returns for the periods ended
December 31, 2023

	1 Year	5 Years	10 Years	Since Inception (October 1, 2013)
Class C Shares Return Before Taxes	(1.89)% ⁴	6.75%	5.90%	6.30%
S&P 500 [®] Index (reflects no deduction for fees, expenses or taxes) ³	26.29%	15.70%	12.03%	12.73%
S&P 500 [®] Low Volatility High Dividend Index (reflects no deduction for fees, expenses or taxes) ³	1.70%	7.00%	8.73%	8.97%

Quality Dividend Fund — Institutional Class Shares
Average Annual Total Returns for the periods ended
December 31, 2023

	1 Year	5 Years	Since Inception (October 4, 2016)
Institutional Class Shares Return Before Taxes	0.03%	7.81%	7.17%
S&P 500 [®] Index (reflects no deduction for fees, expenses or taxes) ³	26.29%	15.70%	13.66%
S&P 500 [®] Low Volatility High Dividend Index (reflects no deduction for fees, expenses or taxes) ³	1.70%	7.00%	6.16%

¹ Average annual total returns for Class A shares of the Fund reflect the imposition of the maximum front-end sales charge of 5.75%.

- ² The “Return After Taxes on Distributions and Sale of Shares” is higher than the “Return Before Taxes” and/or the “Return After Taxes on Distributions” because of realized losses that would have been sustained upon the sale of Fund shares immediately after the relevant periods.
- ³ Effective September 1, 2024, the Fund’s primary broad-based performance index changed to the S&P 500[®] Index due to regulatory requirements. The S&P 500[®] Index is a widely recognized unmanaged index of 500 common stocks, which are generally representative of the U.S. stock market as a whole. The Fund will retain the S&P 500[®] Low Volatility High Dividend Index as its additional benchmark for performance comparison. The S&P 500[®] Low Volatility High Dividend Index is an unmanaged index that measures the performance of the 50 least volatile high dividend-yielding stocks in the S&P 500.
- ⁴ Reflects the imposition of the maximum deferred sales charge of 1.00%.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown and are not relevant if you hold your shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns shown are for Class A shares only; after tax returns for Class C and Institutional Class shares will vary.

Management of the Fund

Investment Adviser

EquityCompass Investment Management, LLC (“EquityCompass”) serves as the Fund’s investment adviser.

Portfolio Managers

Name	Title	Fund Portfolio Manager Since
Thomas P. Mulroy	Senior Portfolio Manager and Executive Vice President of the Adviser	July 2018
Michael S. Scherer	Senior Portfolio Manager of the Adviser	Inception in 2013

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains. Such distributions are not currently taxable when shares are held through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. However, subsequent withdrawals from any tax-deferred account in which the shares are held may be subject to federal income tax.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the financial intermediary for the sale of Fund shares and/or for related services to shareholders. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

MORE INFORMATION ABOUT THE FUND'S INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES AND RISKS

INVESTMENT OBJECTIVE

The Fund seeks to achieve current income and long-term growth of capital. The investment objective may be changed by the Trust's Board of Trustees without shareholder approval upon written notice to shareholders. There is no guarantee that the Fund will achieve its investment objective.

ADDITIONAL INFORMATION ABOUT THE FUND'S INVESTMENT STRATEGIES

The Fund's principal investment strategies are discussed in the "Fund Summary" section. Principal investment strategies are those that the Adviser (as defined below) will use on a day-to-day basis to achieve the Fund's investment objective. This section provides more information about these strategies, as well as information about some additional strategies that the Fund's Adviser uses, or may use, to achieve the Fund's objective. Additional information about these investment strategies and practices and related risks is also provided in the Fund's Statement of Additional Information ("SAI"). The Fund may also use strategies and invest in securities that are not described in this Prospectus, but that are described in the SAI. The investments and strategies discussed below are those that the Adviser will use under normal market conditions.

Under normal circumstances, the Fund invests at least 80% of its net assets in a diversified portfolio of income-producing (dividend-paying) equity securities of U.S. and foreign companies.

The Fund may invest up to 20% of its total assets in fixed income securities, including the debt of U.S. corporations, the U.S. government and its agencies and debt issued by non-U.S. governments and corporations without regard to credit rating or maturity, including non-investment grade fixed income securities (i.e., junk bonds).

The Fund may invest in preferred stocks. The value of preferred stock may not increase or decrease as rapidly as the issuer's common stock. Traditional preferred securities may be issued by an entity taxable as a corporation and pay fixed or floating rate dividends. However, these claims are subordinated to more senior creditors, including senior debt holders. "Preference" means that a company must pay dividends on its preferred securities before paying any dividends on its common stock, and the claims of preferred securities holders are ahead of common stockholders' claims on assets in a corporate liquidation. Holders of preferred securities usually have no right to vote for corporate directors or on other matters. Preferred securities share many investment characteristics with

both common stock and bonds; therefore, the risks and potential rewards of investing in the Fund may at times be similar to the risks of investing in both equity funds and bond funds.

The Fund may invest in convertible securities. The value of a convertible security may not increase or decrease as rapidly as the underlying common stock. Additionally, a convertible security normally will provide for interest income and therefore is subject to interest rate risk. While convertible securities generally offer lower interest or dividend yields than non-convertible fixed-income securities of similar quality, their value tends to increase as the market value of the underlying stock increases and to decrease when the value of the underlying stock decreases.

The Fund may invest in derivative instruments. Derivative instruments may be used for a variety of reasons consistent with the Fund's investment objective and strategies, including for risk management, for leverage and to indirectly participate in other types of investments. Derivative instruments involve risks different from direct investments in underlying securities. These risks include imperfect correlation between the value of the instruments and the underlying assets; risks of default by the other party to certain transactions; risks that the transactions may result in losses that partially or completely offset gains in portfolio positions; and risks that the transactions may not be liquid.

In anticipation of, or in response to, adverse market or other conditions or atypical circumstances such as unusually large cash inflows or redemptions, the Fund may temporarily hold all or a larger than normal portion of its assets in U.S. Government securities, money market funds, cash or cash equivalents. The Adviser will determine when market conditions warrant temporary defensive measures. Under such conditions, the Fund may not invest in accordance with its investment objective or principal investment strategy and may not achieve its investment objective.

PRINCIPAL RISKS

The following is a list of certain principal risks that may apply to your investment in the Fund. Further information about investment risks is available in the Fund's SAI:

- **Common Stock Risk:** Because the Fund normally invests a substantial portion of its assets in common stocks, the value of the Fund's portfolio will be affected by changes in stock markets. Common stock represents an equity (ownership) interest in a company or other entity. At times, the stock markets

can be volatile, and stock prices can change drastically. This market risk will affect the Fund's net asset value, which will fluctuate as the values of the Fund's portfolio securities and other assets change. Not all stock prices change uniformly or at the same time, and not all stock markets move in the same direction at the same time. In addition, other factors can adversely affect a particular stock's price (for example, poor management decisions, poor earnings reports by an issuer, loss of major customers, competition, major litigation against an issuer, or changes in government regulations affecting an industry). Not all of these factors nor their effects can be predicted.

- **Changing Distribution Levels Risk:** Although the Fund will invest primarily in income-producing equities, the amount of income that the Fund will receive will vary and the Fund cannot guarantee any particular level of distributions. Companies that have paid regular dividends to shareholders may decrease or eliminate dividend payments in the future. A decrease in dividend payments by an issuer may result in the Fund receiving less income.
- **Covered Call Options Risk:** The writing of options is intended to earn cash through the receipt of option premiums. As the seller of the call option, the Fund receives cash (the "premium") from the purchaser. Depending on the type of call option, the purchaser of a call option has the right to any appreciation in the value over a fixed price (the "exercise price") of a security or index either on a certain date in the future (the "expiration date") or at any time prior to the expiration date. If the purchaser does not exercise the option, the Fund retains the premium. If the purchaser exercises the option, the Fund pays the purchaser the difference between the value of the security or the index and the exercise price of the option or, in the case of options on securities, closes the option by delivering the underlying security versus the payment of the exercise price. The premium, the exercise price and the value of the security or index determine the gain or loss realized by the Fund. The Fund can also repurchase the call option prior to the expiration date, ending its obligation, and the cost of entering into closing purchase transactions will determine the gain or loss realized by the Fund.

Writing covered call options may provide a steady cash flow, although it may also reduce the Fund's ability to profit from increases in the value of those securities covering a written option. Selling (writing) covered call options will limit the Fund's gain, if any,

on its underlying securities. The Fund continues to bear the risk of a decline in the value of its underlying equity securities. Premiums are treated as short-term capital gains and when distributed to shareholders, are usually taxable as ordinary income, which may have a higher tax rate than long-term capital gains for shareholders holding Fund shares in a taxable account. If the Fund were unable to close out a covered call option that it had written on a security, it would not be able to sell the underlying security unless the option expired unexercised. There can be no assurance that a liquid market will exist when the Fund seeks to enter or close out an open option position. The value of options may be adversely affected if the market for the options becomes less liquid or smaller. Call options involve other risks, including the risk of mispricing or improper valuation and the risk that changes in the value of the call option may not correlate perfectly with the underlying security.

- **Dividend Paying Stock Risk:** A decrease in the dividend payments by an issuer may result in a decrease in the value of the security. A fund pursuing a dividend-oriented investment strategy may at times underperform other funds that invest more broadly or that have different investment styles.
- **Equity Securities Risk:** Common and preferred stocks represent equity ownership in a company. Stock markets are volatile. The price of equity securities will fluctuate and can decline and reduce the value of a portfolio investing in equities. The value of equity securities purchased by the Fund could decline if the financial condition of the companies the Fund invests in decline or if overall market and economic conditions deteriorate. They may also decline due to factors that affect a particular industry or industries, such as labor shortages or an increase in production costs and competitive conditions within an industry. In addition, they may decline due to general market conditions that are not specifically related to a company or industry, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or generally adverse investor sentiment.
- **Foreign Securities Risk:** Foreign securities may be subject to risk of loss because of more or less foreign government regulation, less public information and less economic, political and social stability in the countries in which the Fund invests. Loss may also result from the imposition

of exchange controls, confiscations and other government restrictions, or from problems in registration, settlement or custody. Foreign risk also involves the risk of negative foreign currency rate fluctuations, which may cause the value of securities denominated in such foreign currency (or other instruments through which the Fund has exposure to foreign currencies) to decline in value. Currency exchange rates may fluctuate significantly over short periods of time.

- **Management Risk:** As with any managed fund, the Adviser may not be successful in selecting the best-performing securities or investment techniques, and the Fund's performance may lag behind that of similar funds. The Adviser may also miss out on an investment opportunity because the assets necessary to take advantage of the opportunity are tied up in other investments, potentially including investments that may not perform as well as the investment opportunity.
- **Market Risk:** The values of, and/or the income generated by, securities held by the Fund may decline due to factors that are specifically related to a particular company, as well as general market conditions, such as real or perceived adverse economic or political conditions, inflation rates and/or investor expectations concerning such rates, changes in interest rates, or adverse investor sentiment generally. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments. Geopolitical events, including terrorism, tensions or open conflict between nations, or political or economic dysfunction within some nations that are global economic powers, may lead to instability in world economies and markets, may lead to increased market volatility, and may have adverse long-term effects. Events such as environmental and natural disasters, public health crises (such as epidemics and pandemics), social unrest, and cybersecurity incidents, and governments' reactions to such events, could cause uncertainty in the markets and may adversely affect the performance of the global economy.
- **Master Limited Partnership Risk:** Investments in securities of an MLP involve risks that differ from investments in common stock, including risks related to limited control and limited rights to vote on matters affecting the MLP, risks related to potential conflicts of interest between the MLP and

the MLP's general partner, cash flow risks, dilution risks and risks related to the general partner's right to require unit-holders to sell their common units at an undesirable time or price. Certain MLP securities may trade in lower volumes due to their smaller capitalizations, and may be subject to more abrupt or erratic price movements and lower market liquidity. MLPs are generally considered interest-rate sensitive investments. During periods of interest rate volatility, these investments may not provide attractive returns.

Distributions from MLPs may include a return of capital, in addition to profits. To the extent a distribution received by the Fund from an MLP is treated as a return of capital, the Fund's adjusted tax basis in the interests of the MLP may be reduced, which will result in an increase in an amount of income or gain (or decrease in the amount of loss) that will be recognized by the Fund for tax purposes upon the sale of any such interests or upon subsequent distributions in respect of such interests. Furthermore, any return of capital distribution received from the MLP may require the Fund to restate the character of its distributions and amend any shareholder tax reporting previously issued. Moreover, a change in current tax law, or a change in the underlying business mix of a given MLP, could result in an MLP being treated as a corporation for U.S. federal income tax purposes, which could result in a reduction of the value of the Fund's investment in the MLP and lower income to the Fund.

- **Model and Data Risk:** The Adviser utilizes quantitative models (both proprietary models developed by the Adviser, and those supplied by third parties) and information and data supplied by third parties ("Models and Data"). Models and Data are used to construct sets of transactions and investments, to provide risk management insights, and to assist in hedging the Fund's investments.

When Models and Data prove to be incorrect or incomplete, any decisions made in reliance thereon expose the Fund to potential risks. Similarly, any hedging based on faulty Models and Data may prove to be unsuccessful. Some of the models used by the Adviser for the Fund are predictive in nature. The use of predictive models has inherent risks. Because predictive models are usually constructed based on historical data supplied by third parties, the success of relying on such models may depend heavily on the accuracy and reliability of the supplied historical data.

All models rely on correct market data inputs. If incorrect market data is entered into even a well-founded model, the resulting information will be incorrect. However, even if market data is input correctly, “model prices” will often differ substantially from market prices, especially for instruments with complex characteristics, such as derivative instruments.

- **REIT Risk:** REITs whose underlying properties are concentrated in a particular industry or geographic region are subject to risks affecting such industries and regions. The securities of REITs may involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements because of interest rate changes, economic conditions and other factors. Securities of such issuers may lack sufficient market liquidity to enable a fund to effect sales at an advantageous time or without a substantial drop in price. Distributions from REITs may include a return of capital, in addition to profits. Dividends from REITs may not receive qualified dividend tax treatment, which could adversely impact the fund’s after-tax returns.
- **Sector Risk:** Although the Fund may not “concentrate” (invest 25% or more of its net assets) in any industry, it may focus its investments from time to time on one or more economic sectors. To the extent that it does so, developments affecting companies in that sector or sectors will likely have a magnified effect on the Fund’s NAV and total returns and may subject the Fund to greater risk of loss. Accordingly, the Fund could be considerably more volatile than a broad-based market index or other mutual funds that are diversified across a greater number of securities and sectors.

OTHER RISKS

In addition to the principal risks described above, the Fund may also be subject to the following additional risk.

- **Cyber Security Risk:** As part of its business, the Adviser processes, stores and transmits large amounts of electronic information, including information relating to the transactions of the Fund. The Adviser and the Fund may be susceptible to operational and information security risk. Cyber security failures or breaches of the Adviser or the Fund’s other service providers have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, the inability of the Fund’s shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties and/or reputational damage. The Fund and its shareholders could be negatively impacted as a result.

Disclosure of Portfolio Holdings

A description of the Fund’s policies and procedures with respect to the disclosure of its portfolio securities is available in the Fund’s SAI, which is available, free of charge, by calling Shareholder Services toll-free at (888) 201-5799, or on the Fund’s website at <http://www.equitycompass.com>.

The SAI may also be viewed or downloaded, free of charge, from the EDGAR database on the Securities and Exchange Commission’s (“SEC”) website at <http://www.sec.gov>.

MORE INFORMATION ABOUT MANAGEMENT OF THE FUND

The Trust's Board of Trustees supervises the management, activities and affairs of the Fund and has approved contracts with various organizations to provide, among other services, the day-to-day management required by the Fund and its shareholders.

INVESTMENT ADVISER

EquityCompass Investment Management, LLC, ("EquityCompass" or the "Adviser") is a registered investment adviser located at One South Street, Baltimore, Maryland 21202. The Adviser was formed as a Missouri corporation in September 2007 and has been registered as an investment adviser with the SEC since 2008; it is a wholly-owned subsidiary of Stifel Financial Corp. (NYSE: SF). In addition to serving as investment adviser to the Fund, EquityCompass offers a broad range of portfolio strategies based on its systematic research-driven investment process which merges traditional investment theory with quantitative techniques. EquityCompass portfolio strategies are available in a variety of vehicles including separately managed accounts, mutual funds, UCITs funds and Equity Linked Notes. They are also made available as model portfolios to other financial institutions (wrap program sponsors) who use them to manage their own wrap accounts. As of June 30, 2024, EquityCompass provided portfolio strategies with respect to assets of approximately \$4.92 billion.

The Adviser, subject to the general oversight of the Trust's Board of Trustees, has overall responsibility for directing the investments of the Fund in accordance with its investment objective, policies and limitations.

For the fiscal year ended April 30, 2024, after fee waivers and expense reimbursements, the Adviser received an aggregate investment advisory fee of 0.27% of the Fund's average net assets. A discussion of the basis for the Board of Trustees' approval of the investment management agreement between the Adviser and the Trust, on behalf of the Fund, is available in the Fund's semi-annual report to shareholders for the fiscal period ended October 31, 2023.

PORTFOLIO MANAGERS

Thomas P. Mulroy, Senior Portfolio Manager, has been added to the Fund as a Portfolio Manager in July 2018. Mr. Mulroy is the Executive Vice President and Senior Portfolio Manager of EquityCompass Strategies and is responsible for managing various strategies, including the Quality Dividend Strategy.

Mr. Mulroy has more than 30 years of investment experience, most recently with Stifel, Nicolaus & Company, Inc. where he served as Co-Director of the Institutional Group from July 2009 to June 2017 and Executive Vice President and Head of Equity Capital Markets from December 2005 to July 2009. Tom was Co-President and Director of Stifel Financial Corp. from June 2014 through June 2017 and Senior Vice President from December 2005 through June 2014. Prior to joining Stifel, Tom served as Executive Vice President at Legg Mason Wood Walker, Inc. from 1986 through November 2005 and was instrumental in the transformative deal that brought Legg Mason Capital Markets to Stifel in their 2005 acquisition. Tom's leadership has been a driving force behind Stifel's growth since that time. Tom also formerly served as Chairman of the Board of Stifel Nicolaus Europe Limited.

He received a B.S. in Finance from Ithaca College and an M.B.A. in Finance from American University.

Michael Scherer, Senior Portfolio Manager, has been a Portfolio Manager of the Fund since its inception in 2013. Mr. Scherer is the Portfolio Manager of the EquityCompass Quality Dividend and Select Quality SMA portfolios, as well as a senior member of the team responsible for developing and researching EquityCompass' quantitative portfolio strategies. He has written extensively on market strategy and works closely with Stifel Nicolaus financial advisors educating them on EquityCompass investment portfolios and products.

Mr. Scherer has over 20 years of investment experience. He has been involved in quantitative model maintenance and portfolio construction since his joining the EquityCompass team in 2000 when it was a unit within Legg Mason.

Mr. Scherer has a B.A. from College of William & Mary and an MBA in Finance from Loyola of Maryland.

The Fund's SAI provides additional information about each Portfolio Manager's compensation, other accounts managed by each Portfolio Manager and each Portfolio Manager's ownership of Fund shares.

SHAREHOLDER INFORMATION

PRICING OF SHARES

The price of the Fund's shares is based on its NAV. The Fund values its assets, based on current market values when such values are available. The NAV per share of the Fund is calculated as follows:

$$\text{NAV} = \frac{\text{Value of Assets Attributable to the Shares} - \text{Value of Liabilities Attributable to the Shares}}{\text{Number of Outstanding Shares}}$$

The Fund's NAV per share is calculated once daily as of the close of regular trading on the Exchange (typically 4:00 p.m., Eastern time) on each business day (i.e., a day that the Exchange is open for business). The Exchange is generally open on Monday through Friday, except national holidays. The price at which a purchase, redemption or exchange is effected is based on the next calculation of NAV after the order is received in good form by an authorized financial institution or the transfer agent, plus any applicable sales charges.

The Fund's equity securities listed on any national or foreign exchange market system will be valued at the last sale price. Equity securities traded in the over-the-counter market are valued at their closing sale or official closing price. If there were no transactions on that day, securities traded principally on an exchange will be valued at the mean of the last bid and ask prices prior to the market close. Prices for equity securities normally are supplied by an independent pricing service approved by the Board of Trustees. The valuations of securities that trade principally on a foreign market that closes before the time as of which a Fund calculates its NAV will generally be based on an adjusted fair value price furnished by an independent pricing service as of the time NAV is calculated. Fixed income securities are valued based on market quotations, which are furnished by an independent pricing service. Any assets held by the Fund that are denominated in foreign currencies are valued daily in U.S. dollars at the foreign currency exchange rates that are prevailing at the time that the Fund determines the daily NAV per share. Foreign securities may trade on weekends or other days when the Fund does not calculate NAV. As a result, the market value of these investments may change on days when you cannot buy or sell shares of the Fund. Investments in any mutual fund are valued at their respective NAVs as determined by those mutual funds each business day (which may use fair value pricing as disclosed in their prospectuses).

Securities that do not have a readily available current market value are valued in good faith by the Adviser as "valuation designee" under the oversight of the Trust's Board of Trustees. The Adviser has adopted written policies and procedures for valuing securities and other assets in circumstances where market quotes are not readily available. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the aforementioned valuation methods, the value of the security or asset will be determined in good faith by the Adviser pursuant to its policies and procedures. On a quarterly basis, the Adviser's fair valuation determinations will be reviewed by the Trust's Board of Trustees. The Adviser's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security or asset values as of the time of pricing. However, fair values for a security or asset determined pursuant to the Adviser's policies and procedures may not accurately reflect the price that the Fund could obtain if it were to dispose of that security or asset as of the time of pricing.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/asked information, broker quotes), including where events occur after the close of the relevant market, but prior to the close of the Exchange, that materially affect the values of the Fund's securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, an exchange or market on which a security trades does not open for trading for the entire day and no other market prices are available. The Adviser as valuation designee will monitor for significant events that may materially affect the values of the Fund's securities or assets and for determining whether the value of the applicable securities or assets should be re-evaluated in light of such significant events.

PURCHASE OF SHARES

Share Classes

The Trust offers Class A shares, Class C shares and Institutional Class shares of the Fund. Each Class of shares has different expenses and distribution arrangements to provide for different investment needs. This allows you to choose the class of shares most suitable for you depending on the amount and expected length of your investment and other relevant factors. Sales personnel may receive different compensation for selling each class of shares. Class A shares and Class C shares are for individuals, corporate investors and retirement plans. Institutional Class shares are generally offered to corporations and other institutional investors or broker-dealers purchasing for the accounts of others. If you purchase Institutional Class shares through a financial intermediary, you may be charged a brokerage commission on shares transacted in, other transaction-based fees or other fees for the services of such organization.

Class A	Class C	Institutional Class
Initial sales charge of 5.75% or less	No initial sales charge	No initial sales charge
Deferred sales charge may apply ¹	Deferred sales charge may apply ²	No deferred sales charge
Lower annual expenses than Class C due to lower distribution/service fees; and higher annual expenses than Institutional Class shares.	Higher annual expenses than Class A due to higher distribution/service fees; and higher annual expenses than Institutional Class shares.	Lower annual expenses than Class A and Class C shares due to no distribution or service fees.

¹ A 1.00% CDSC may apply for investments of \$1 million or more of Class A shares (and therefore on which no initial sales charge was paid by the shareholder) if shares are redeemed within 12 months after initial purchase. The CDSC shall not apply to those purchases of Class A shares of \$1 million or more where the selling broker-dealer was not paid a commission. Investors should inquire with their financial intermediary regarding whether the CDSC is applicable to them.

² A 1.00% CDSC will be assessed when Class C shares are redeemed within 12 months after initial purchase; however, the CDSC shall not apply to the purchases of Class C shares where the selling broker dealer was not paid a commission at the time of purchase.

Shares representing interests in the Fund are offered on a continuous basis for sale by the Fund's principal underwriter, Foreside Funds Distributors LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group) (the "Underwriter"). You can purchase Class A shares, Class C shares or Institutional Class shares of the Fund through certain financial intermediaries or directly through BNY Mellon Investment Servicing, the Fund's transfer agent, as discussed below. Shares of the Fund are offered only to residents of states in which the shares are registered or qualified. No share certificates are issued in connection with the purchase of the Fund's shares. The minimum initial investment requirement may be waived for persons including clients of the Adviser or its affiliates, trustees/directors, officers and employees of the Adviser and its affiliates or the Trust and their spouses, parents and children. You may purchase shares as specified below.

In the event your financial intermediary modifies or terminates its relationship with the Trust, your shares may be redeemed by the Trust unless you make arrangements to (a) transfer your Fund shares to another financial intermediary that is authorized to process Fund orders or (b) establish a direct account with the Fund's transfer agent by following the instructions under "To Open An Account." To open an account directly with the Fund, you must meet the minimum initial investment amount or, if available, exchange your shares for shares of another class in which you are eligible to invest.

In the event you modify or change your relationship with your financial intermediary through which you invest in the Fund (for instance from an advisory relationship to a brokerage relationship) you may no longer be eligible to invest in a particular share class and your financial intermediary may exchange your shares for another share class which may be subject to higher expenses and Rule 12b-1 distribution fees.

In addition, the availability of certain classes of shares may be limited to certain intermediary platforms, which means that your eligibility to purchase a specific class of Fund shares may depend on whether your intermediary offers that class.

The Trust is not responsible for any loss in an investor's account or tax liability resulting from an involuntary redemption.

CLASS A SHARES

Distribution Plan

The Trust's Board of Trustees, on behalf of the Fund's Class A shares, has adopted a plan pursuant to Rule 12b-1 under the Investment Company Act of 1940, as amended (the "1940 Act") that allows the Fund to pay distribution and service fees for the sale and distribution of its shares and for services provided to its shareholders. Because these fees are paid out of the Fund's assets on an ongoing basis, over time, these fees will increase the cost of your investment and may cost more than paying other types of sales charges. The distribution plan for Class A shares provides for payments of up to 0.25% of the average daily net assets of the Fund's Class A shares.

Front-End Sales Charge

Sales of Class A shares of the Fund include a front-end sales charge (expressed as a percentage of the offering price) as shown in the following table:

Class A Shares — Front-End Sales Charge

Amount of Single Transaction	Sales Charge as a Percentage of Offering Price	Sales Charge as a Percentage of Net Amount Invested	Dealer Concession as a Percentage of Offering Price
Less than \$25,000	5.75%	6.10%	5.25%
\$25,000 but less than \$50,000	5.50%	5.82%	5.00%
\$50,000 but less than \$100,000	4.75%	4.99%	4.25%
\$100,000 but less than \$250,000	3.75%	3.90%	3.25%
\$250,000 but less than \$500,000	2.50%	2.56%	2.00%
\$500,000 but less than \$1,000,000	2.00%	2.04%	1.75%
\$1,000,000 or more	0.00%	0.00%	0.00%

Selected dealers who have entered into an agreement with the Underwriter may receive a dealer concession. The dealer's concession depends on which class of shares you choose and may be changed from time to time. Currently, on Class A shares, dealers receive the concession set forth in the table above, as well as the 0.25% distribution fee (12b-1). On some occasions, such incentives may be conditioned upon the sale of a specified minimum dollar amount of the shares of the Fund during a specified period of time. A dealer who receives all or substantially all of the sales charge may be considered an "underwriter" under the Securities Act of 1933, as amended. Selected dealers may receive a commission of up to 1% as a percentage of the offering price of Class A shares on purchases of \$1 million or more of Class A shares. If a dealer receives such commission, the CDSC, discussed below, will apply to those purchases of Class A shares of \$1 million or more. To the extent the CDSC applies, the CDSC paid by the shareholder will be used as reimbursement for such commission.

Contingent Deferred Sales Charge ("CDSC")

If you bought Class A shares without an initial sales charge because your investments in the Fund were in excess of \$1 million in the aggregate at the time of purchase, you may incur a CDSC of up to 1.00% if you redeem those shares within 12 months of purchasing those shares. Subsequent Class A share purchases that bring your aggregate account value to \$1 million or more will also be subject to a CDSC if you redeem them within 12 months of purchasing those shares. The CDSC will only apply to purchases of Class A shares where a selling broker or dealer received compensation for the sale of such shares at the time of purchase. Investors should inquire with their financial intermediary regarding whether the CDSC is applicable to them.

The CDSC on Class A shares is applied to the NAV at the time of your purchase or sale, whichever is lower, and will not be applied to any shares you receive through reinvested distributions. When you place an order to sell your Class A shares, the Fund will first redeem any shares that are not subject to a CDSC followed by those you have held the longest.

You may be able to avoid an otherwise applicable CDSC when you sell Class A shares of the Fund. This could happen because of the way in which you originally invested in the Fund, because of your relationship with the Trust, the Underwriter or the Adviser, or for other reasons. A CDSC that would otherwise be applied may be waived, at the discretion of the Fund. Restrictions may apply to certain accounts and certain transactions. The Fund may change or cancel these terms at any time.

Reduced Sales Charges

You can reduce the initial sales charge of Class A shares by taking advantage of breakpoint opportunities in the sales charge schedules, as set forth above. The sales charge for purchases of the Fund's Class A shares may also be reduced for a single purchaser through a Right of Accumulation or a Letter of Intent, as described below. To qualify for a reduced sales charge, you are responsible for notifying your dealer or BNY Mellon Investment Servicing (US) Inc. ("BNY Mellon Investment Servicing"), the Fund's transfer agent. Certain transactions in Class A shares may be made at NAV as described below. If the account owner is an entity (e.g., a trust, a qualified plan, etc.), these privileges will apply to beneficial owners and trustees.

These privileges are also available to investors who invest completely or partially through accounts at financial intermediaries, e.g., through accounts at broker-dealers (rather than opening an account directly with the Fund's transfer agent). To take advantage of these privileges, the account owner (or if applicable, the beneficial owner or trustee), either directly or through their registered representative or financial intermediary, as applicable, must identify and provide information to the Fund's transfer agent regarding eligibility for these privileges. Stated differently, an investor must identify to the Fund's transfer agent, either directly or through its registered representative or financial intermediary, the complete universe of eligible shareholder accounts (e.g., IRA, non-retirement, 529 plan, etc.), in order to receive the maximum breakpoint discount possible. It is the responsibility of the investor, either directly or through its registered representative and/or financial intermediary, to ensure that the investor obtains the proper "breakpoint" discounts.

In order for the Fund to identify accounts opened through a financial intermediary, you or your financial intermediary must provide the Fund's transfer agent with the applicable account numbers. For purposes of identifying Fund accounts opened directly with the Fund's transfer agent, you or your registered representative must provide the Fund's transfer agent with either the applicable account numbers or the applicable tax identification numbers.

The Fund does not provide additional information on reduced sales charges on its website because the information is contained in its Prospectus, which is available on the Fund's website at <http://www.equitycompass.com>.

Right of Accumulation. You may combine your shares and the shares of your spouse and your children under the age of 21 in order to qualify for the Right of Accumulation. If you already hold Class A shares of the Fund, a reduced sales charge based on the sales charge schedule for Class A shares may apply to subsequent purchases of shares of the Fund. The sales charge on each additional purchase is determined by adding the current market value of the shares you currently own to the amount being invested. The reduced sales charge is applicable only to current purchases. It is your responsibility to notify your dealer or BNY Mellon Investment Servicing, the Fund's transfer agent, at the time of subsequent purchases that the purchase is eligible for the reduced sales charge under the Right of Accumulation.

Letter of Intent. You may qualify for a reduced sales charge immediately by signing a non-binding Letter of Intent stating your intention to invest during the next 13 months a specified amount that, if made at one time, would qualify for a reduced sales charge. The first investment cannot be made more than 90 days prior to the date of the Letter of Intent. Any redemptions made during the 13-month period will be subtracted from the amount of purchases in determining whether the requirements of the Letter of Intent have been satisfied. During the term of the Letter of Intent, BNY Mellon Investment Servicing will hold shares representing 5% of the indicated amount in escrow for payment of a higher sales charge if the full amount indicated in the Letter of Intent is not purchased. The escrowed shares will be released when the full amount indicated has been purchased. If the full amount indicated is not purchased within the 13-month period, your escrowed shares will be redeemed in an amount equal to the difference in the dollar amount of sales charge actually paid and the amount of sales charge you would have had to pay on your aggregate purchases if the total of such purchases had been made at a single time. It is your responsibility to notify your dealer or BNY Mellon Investment Servicing, the Fund's transfer agent, at the time the Letter of Intent is submitted that there are prior purchases that may apply.

For more information on reduced sales charges, call Shareholder Services toll-free at (888) 201-5799 or consult your broker or financial intermediary.

Reinstatement Privilege for Class A Shares

For a period of 60 days after you sell Class A shares of the Fund, you may reinvest your redemption proceeds in Class A shares of the Fund at NAV. You, your broker or your financial adviser must notify the Fund's transfer agent in writing of your eligibility to reinvest at NAV at the time of reinvestment in order to eliminate the sales charge on your reinvestment. The Fund may require documentation to support your eligibility.

Sales at Net Asset Value

The Fund may sell Class A shares at NAV (i.e., without the investor paying any initial sales charge) under certain circumstances, provided that you notify the Fund or your financial intermediary in advance of a transaction that qualifies for this privilege, including:

1. Direct rollovers (i.e., rollovers of Fund shares and not reinvestments of redemption proceeds) from qualified employee benefit plans, provided that the rollover involves a transfer to Class A shares in the same Fund;
2. Purchases by state sponsored 529 college savings plans;
3. Purchases by registered investment advisers, trust companies and bank trust departments exercising discretionary investment authority with respect to amounts to be invested in the Fund;
4. Purchases by insurance company separate accounts;
5. Purchases by investment advisory clients of the Adviser or its affiliates;
6. Purchases by officers and present or former Trustees of the Trust; directors and full-time employees of selected dealers or agents; the spouse, sibling, direct ancestor or direct descendant (collectively "relatives") of any such person; any trust, individual retirement account or retirement plan account for the benefit of any such person or relative; or the estate of any such person or relative; if such shares are purchased for investment purposes (such shares may not be resold except to the Fund);
7. Purchases by the Adviser and its affiliates and certain employee benefit plans for employees of the Adviser;
8. Purchases by persons associated with the Fund, Adviser and its affiliates, transfer agent, underwriter and custodian, fund counsel and their respective affiliates (to the extent permitted by these firms) including: (a) present and former officers, trustees, directors and partners; (b) employees and retirees; (c) immediate family members of such persons; and (d) any trust, pension, profit-sharing or other benefit plan for any of the persons set forth in (a) through (c);
9. Purchases by authorized retirement plans serviced or sponsored by a financial intermediary, including employer sponsored qualified pension or profit-sharing plans (including Section 401(k) plans), custodial accounts maintained pursuant to Section 403(b)(7) retirement plans, and individual retirement accounts (including individual retirement accounts to which simplified employee pension ("SEP") contributions are made);
10. Purchases by fee-based financial planners and registered investment advisers who are purchasing on behalf of their clients and purchases through or under a wrap fee product or other investment product sponsored by a financial intermediary that charges an account management fee or other managed agency/asset allocation accounts or programs involving fee-based compensation arrangements that have entered into, or that clear trades through a financial intermediary that has entered into, an agreement with the Fund or the Underwriter. Investors may be charged a fee when effecting transactions in Class A shares through such investment accounts or products;
11. Purchases by broker-dealers who have entered into selling agreements with the Adviser for their own accounts;
12. Purchases by participants in no-transaction-fee programs of brokers (whether or not such brokers maintain an omnibus account with the Fund);
13. Purchases by financial intermediaries who have entered into an agreement with the Fund's Underwriter to offer shares to self-directed investment brokerage accounts that may or may not charge a transaction fee to its customers; and
14. Purchases through the reinvestment of Fund distributions (dividends and capital gains).

The Fund reserves the right to modify or terminate these arrangements at any time.

CLASS C SHARES

Distribution Plan

The Trust's Board of Trustees, on behalf of the Fund's Class C shares, has adopted a plan pursuant to Rule 12b-1 under the 1940 Act that allows the Fund to pay distribution and service fees for the sale and distribution of its shares and for services provided to its shareholders. Because these fees are paid out of the Fund's assets on an ongoing basis, over time, these fees will increase the cost of your investment and may cost more than paying other types of sales charges. The distribution plan for Class C shares provides for payments of up to 1.00% of the average daily net assets of the Fund's Class C shares. This fee is comprised of a distribution fee of 0.75% of average daily net assets and a shareholder service fee of 0.25% of average daily net assets.

Contingent Deferred Sales Charge ("CDSC")

A 1.00% CDSC will be assessed when Class C shares are redeemed within 12 months after initial purchase; however, the CDSC shall not apply to the purchases of Class C shares where the selling broker dealer was not paid a commission at the time of purchase. To the same extent, subsequent purchases will also be subject to a CDSC if you redeem them within 12 months of purchasing those shares. Pursuant to financing arrangements with the Underwriter, the Adviser may advance 1.00% of the purchase price of Class C shares, at the time of purchase, to selling brokers, dealers, or other financial intermediaries that have entered into distribution agreements with the Underwriter. Such advance will be from the Adviser's own resources. During the period the CDSC is applicable with respect to such shares, the Class C Rule 12b-1 fees (as described above) attributable to those shares will be paid to the Adviser in satisfaction of the advance. If a CDSC is not (or is no longer) applicable with respect to such shares, the Class C Rule 12b-1 fees attributable to those shares will be paid to the selling broker, dealer or other financial intermediary. Investors should inquire with their financial intermediary regarding whether the CDSC is applicable to them.

The CDSC on Class C shares is applied to the NAV at the time of your purchase or sale, whichever is lower, and will not be applied to any shares you receive through reinvested distributions. When you place an order to sell your Class C shares, the Fund will first redeem any shares that are not subject to a CDSC followed by those you have held the longest.

The CDSC applicable to Class C shares may be waived when redeeming Class C shares: (i) purchased with reinvested dividends or capital gains; (ii) purchased through financial intermediaries who did not receive advanced sales commission payments; (iii) if, after you purchase shares, you become disabled, as defined by the Internal Revenue Service (the "IRS"); (iv) if the Fund redeems your shares and closes your account for not meeting the minimum balance requirement; (v) if your redemption is a required retirement plan distribution; (vi) representing minimum required distributions from an Individual Retirement Account or other retirement plan to a shareholder who has attained the age of 70½; (vii) upon the death of the last surviving shareholder of the account; or (viii) in the absolute discretion of the Fund, for other hardships with appropriate verification. If your redemption qualifies, you or your financial intermediary should notify the Underwriter or the Fund at the time of redemption to eliminate the CDSC. Financial intermediaries may charge additional fees for their services in connection with share transactions. The Fund may modify or cancel these terms at any time.

Automatic Conversion of Class C Shares

Class C shares of the Fund will automatically convert into Class A shares of the Fund after they have been held for eight years. This conversion will take place, in each case, in the month of or the month following the 8-year anniversary of the purchase date, provided that the Fund or the financial intermediary through which a shareholder purchased Class C shares has records verifying that the Class C shares have been held for at least eight years. The automatic conversion will be based on the relative net asset values of the two share classes without the imposition of a sales charge or fee.

Shareholders that have purchased Class C shares through a Stifel, Nicolaus & Company, Incorporated ("Stifel") platform or account or who own shares for which Stifel or an affiliate is the broker-dealer of record and have been held for more than seven (7) years will be converted to Class A shares of the Fund pursuant to Stifel's policies and procedures.

The IRS currently takes the position that such automatic conversions are not taxable. Should its position change, the automatic conversion feature may be suspended. If this were to happen, you would have the option of converting your Class C shares to A shares at the anniversary date described above but may face certain tax consequences as a result.

Please note that other financial intermediaries may convert Class C shares to Class A shares at an earlier period. When Class C shares convert, any other Class C shares that were acquired by the shareholder by the reinvestment of dividends or distributions will also convert to Class A shares on a pro rata basis.

Institutional Class Shares

Sales of the Fund's Institutional Class shares are not subject to a front-end sales charge or a Rule 12b-1 fee. Institutional Class shares are available to individuals who can meet the required investment minimum, "wrap" account sponsors (provided they have an agreement covering the arrangement with the Fund's Distributor), corporations, and other institutions including, but not limited to, qualified non-profit organizations, charitable trusts, foundations and endowments, pensions, defined benefit plans or defined contribution plans for the benefit of the employees of any federal, state, county, city or municipal government, or any instrumentality, department, authority or agency thereof, and banks, trust companies or other depository institutions investing for their own account or on behalf of their clients.

If you purchase Institutional Class shares through a financial intermediary, you may be charged a brokerage commission on shares transacted in, other transaction-based fees or other fees for the services of such organization.

TO OPEN AN ACCOUNT

By Mail:

Complete the application and mail it to the Fund's transfer agent, BNY Mellon Investment Servicing at the address noted below, together with a check payable to the Fund. **Please make sure your check is for at least \$1,000 with respect to Class A shares or Class C shares (\$250 if investing in an individual retirement account), or at least \$1,000,000 with respect to Institutional Class shares.** Mail the application and your check to:

Regular Mail:

Quality Dividend Fund
FundVantage Trust
c/o BNY Mellon Investment Servicing
P.O. Box 534445
Pittsburgh, PA 15253-4445

Overnight Mail:

Quality Dividend Fund
FundVantage Trust
c/o BNY Mellon Investment Servicing
Attention: 534445
500 Ross Street, 154-0520
Pittsburgh, PA 15262
(888) 201-5799

The Fund will only accept checks drawn on U.S. currency on domestic banks. The Fund will not accept any of the following: cash or cash equivalents, money orders, traveler's checks, cashier's checks, bank checks, official checks and treasurer's checks, payable through checks, third-party checks and third-party transactions.

While the Fund does not generally accept foreign investors, it may in instances where either (i) an intermediary makes shares of the Fund available or (ii) the transfer agent, in the case of a direct to Fund subscription, has satisfied its internal procedures with respect to the establishment of foreign investor accounts. Please contact Shareholder Services toll-free at (888) 201-5799 for more information.

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the application, you must supply your full name, date of birth, social security number, and permanent street address. If you are opening the account in the name of a legal entity (e.g., partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

By Wire:

To make a same-day wire investment, call Shareholder Services toll-free at (888) 201-5799 before 4:00 p.m. Eastern time for current wire instructions. An account number will be assigned to you. **Please make sure your wire is for at least \$1,000 with respect to Class A shares or Class C shares (\$250 if investing in an individual retirement account), or at least \$1,000,000 with respect to Institutional Class shares.** Your wire must be received by the close of the Exchange, typically 4:00 p.m. Eastern time, to receive that day's price per share. Your bank may charge a wire fee.

Individual Retirement Account and Education Savings Account Investments

You may invest in the Fund through an individual retirement account including the following: (i) Traditional Individual Retirement Accounts (“IRAs”); (ii) Savings Incentive Match Plan for Employees (“SIMPLE IRAs”); (iii) Spousal IRAs; (iv) Roth Individual Retirement Accounts (“Roth IRAs”); (v) Simplified Employee Pension Plans (“SEP IRAs”); and (vi) Coverdell Education Savings Accounts (“CESAs”). You should consult your tax adviser to determine whether a retirement plan is appropriate for you.

TO ADD TO AN ACCOUNT

By Mail:

Fill out an investment slip from a previous confirmation and write your account number on your check. **Please make sure that your check is payable to the Fund and that your additional investment is for at least \$100 for Class A shares or Class C shares. There is no minimum additional investment amount for Institutional Class shares.** Mail the slip and your check to:

Regular Mail:

(888) 201-5799

By Wire

Call Shareholder Services toll-free at (888) 201-5799 for current wire instructions. The wire must be received by the close of the Exchange, typically 4:00 p.m. Eastern time, for same day processing. Your bank may charge a wire fee. **Please make sure your wire is for at least \$100 for Class A shares or Class C shares. There is no minimum additional investment amount for Institutional Class shares.**

Automatic Investment Plan

You may open an automatic investment plan account for regular accounts of Class A shares or Class C shares with a \$1,000 initial purchase and a \$100 monthly investment. You may open an automatic investment plan account for an IRA of Class A shares or Class C shares with a \$250 initial purchase and a \$100 monthly investment. If you have an existing account that does not include the automatic investment plan, you can contact the Fund toll-free at (888) 201-5799 to establish an automatic investment plan. The automatic investment plan provides a convenient method to have monies deducted directly from your bank account for investment in the Fund. After your initial purchase of \$1,000 for a regular account or \$250 for an IRA account, you may authorize the automatic withdrawal of funds from your bank account for a monthly minimum amount of \$100. The Fund may alter, modify or terminate this plan at any time. To begin participating in this plan, please complete the “Automatic Investment Plan” section found on the application or contact Shareholder Services toll-free at (888) 201-5799.

Automated Clearing House (ACH) Purchase

Current shareholders may purchase additional shares via Automated Clearing House (“ACH”). To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the same business day for orders placed prior to 4:00 p.m. Eastern time. Orders placed thereafter will be effective at the closing price per share on the next business day. The Fund may alter, modify or terminate this purchase option at any time.

Shares purchased by ACH will not be available for redemption until the transactions have cleared. Shares purchased via ACH transfer may take up to 15 days to clear.

Purchase Price

Class C and Institutional Class shares of the Fund are sold at the NAV next determined after receipt of the request in good order. Class A shares of the Fund are sold at the offering price, which is the NAV next determined after the request is received in good order, plus a maximum sales charge of up to 5.75%. “Good Order” means that the purchase request is complete and includes all required information. Purchase requests not in good order may be rejected.

Financial Intermediaries

You may purchase shares of the Fund through a financial intermediary who may charge you a commission on your purchase, may charge additional fees, and may require different minimum investments or impose other limitations on buying and selling shares. “Financial intermediaries” include: brokers, dealers, banks (including bank trust departments), insurance companies, investment advisers, including the Adviser, financial advisers, financial planners, retirement or 401(k) plan administrators, their designated intermediaries and any other firm having a selling, administration or similar agreement. If you purchase shares through a financial intermediary, that party is responsible for transmitting orders by close of business and may have an earlier cut-off time for purchase and redemption requests. Purchase and redemption orders placed through a financial intermediary will be deemed to have been received and accepted by the Fund when the financial intermediary accepts the order. It is the responsibility of the financial intermediary or nominee to promptly forward purchase or redemption orders and payments to the Fund. Customer orders are required to be priced at the Fund’s NAV next computed after the authorized financial intermediary or its authorized representatives’ receipt of the order to buy or sell. Purchase and redemption requests sent to such authorized broker (or its designee) are executed at the NAV next determined after the intermediary receives the request if transmitted to the Fund’s transfer agent in accordance with the Fund’s procedures and applicable law. Financial intermediaries may also designate other intermediaries to accept purchase and redemption orders on the Fund’s behalf. Consult your investment representative for specific information.

It is the responsibility of the financial intermediary to transmit orders for the purchase of shares by its customers to the Fund’s transfer agent, BNY Mellon Investment Servicing, and to deliver required funds on a timely basis, in accordance with the procedures stated above.

In the event your financial intermediary modifies or terminates its relationship with the Trust, your shares may be subject to involuntary redemption unless you make arrangements to (a) transfer your Fund shares to another financial intermediary that is authorized to process Fund orders or (b) establish a direct account with the Fund’s transfer agent by following the instructions under “To Open An Account.”

Networking and Sub-Transfer Agency Fees

The Fund may also directly enter into agreements with financial intermediaries pursuant to which it will pay the financial intermediary for services such as networking or sub-transfer agency, including the maintenance of “street name” or omnibus accounts and related sub-accounting, record-keeping and administrative services provided to such accounts. Payments made pursuant to such agreements are generally based on either: (1) a percentage of the average daily net assets of clients serviced by such financial intermediary, or (2) the number of accounts serviced by such financial intermediary. Any payments made pursuant to such agreements are in addition to, rather than in lieu of, Rule 12b-1 distribution or shareholder service fees the financial intermediary may also be receiving. From time to time, the Adviser or its affiliates may pay a portion of the fees for networking or sub-transfer agency at its or their own expense and out of its or their own resources. These payments may be material to financial intermediaries relative to other compensation paid by the Fund and/or the Underwriter, the Adviser and their affiliates. The payments described above may differ and may vary from amounts paid to the Fund’s transfer agent, BNY Mellon Investment Servicing, for providing similar services to other accounts. The financial intermediaries are not audited by the Fund, the Adviser or their service providers to determine whether such intermediaries are providing the services for which they are receiving such payments.

Additional Compensation to Financial Intermediaries

The Adviser and, from time to time, affiliates of the Adviser may also, at their own expense and out of their own resources, provide additional cash payments to financial intermediaries who sell shares of the Fund. These additional cash payments are payments over and above sales commissions or reallowances, distribution fees or servicing fees (including networking, administration and sub-transfer agency fees) payable to a financial intermediary which are disclosed elsewhere in this Prospectus. These additional cash payments are generally made to financial intermediaries

that provide sub-accounting, sub-transfer agency, shareholder or administrative services or marketing support. Marketing support may include: (i) access to sales meetings or conferences, sales representatives and financial intermediary management representatives; (ii) inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs to which financial intermediaries provide more marketing support than to other sales programs on which the Adviser or its affiliates may not need to make additional cash payments to be included; (iii) promotion of the sale of the Fund's shares in communications with a financial intermediaries' customers, sales representatives or management representatives; and/or (iv) other specified services intended to assist in the distribution and marketing of the Fund's shares. These additional cash payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The Adviser and its affiliates may also pay cash compensation in the form of finders' fees or referral fees that vary depending on the dollar amount of shares sold.

The amount and value of additional cash payments vary for each financial intermediary. The additional cash payment arrangement between a particular financial intermediary and the Adviser or its affiliates may provide for increased rates of compensation as the dollar value of the Fund's shares or particular class of shares sold or invested through such financial intermediary increases. The availability of these additional cash payments, the varying fee structure within a particular additional cash payment arrangement and the basis for and manner in which a financial intermediary compensates its sales representatives may create a financial incentive for a particular financial intermediary and its sales representatives to recommend the Fund's shares over the shares of other mutual funds based, at least in part, on the level of compensation paid. A financial intermediary and its sales representatives may have similar financial incentives to recommend a particular class of the Fund's shares over other classes of its shares. You should consult with your financial adviser and review carefully any disclosure by the financial firm as to compensation received by your financial adviser.

Although the Fund may use financial firms that sell its shares to effect portfolio transactions for the Fund, the Fund and the Adviser will not consider the sale of Fund shares as a factor when choosing financial firms to effect those transactions.

For more information about these additional cash payments made to financial intermediaries, please refer to the section entitled "Additional Compensation to Financial Intermediaries" located in the SAI.

General Information About Sales Charges

Your securities dealer is paid a commission when you buy Class A shares. Your securities dealer or servicing agent may receive different levels of compensation depending on which class of shares you buy. From time to time, some financial institutions may receive a concession up to the entire sales charge. A firm that receives a concession of the entire sales charge may be considered an underwriter of the Fund's shares for purposes of federal securities laws.

Rights Reserved by the Fund

The Fund reserves the right to:

- reject any purchase order;
- suspend the offering of shares;
- vary the initial and subsequent investment minimums;
- waive the minimum investment requirement for any investor;
- redeem accounts with balances below the minimum account size after 30 days' written notice;
- redeem your shares in the event your financial intermediary's relationship with the Trust is modified or terminated;
- subject to applicable law, redeem your shares in other circumstances determined by the Board of Trustees to be in the best interest of the Fund; and
- redeem your shares if you hold your shares through a financial intermediary and you propose to transfer your shares to another financial intermediary that does not have a relationship with the Trust.

The Trust will not be responsible for any loss in an investor's account or tax liability resulting from an involuntary redemption.

Market Timing and Frequent Trading Policy

The Fund discourages frequent purchases and redemptions, and the Trust's Board of Trustees has adopted policies and procedures consistent with such position. The Fund is not designed to accommodate market timing or short-term trading. Frequent or excessive trades into or out of the Fund in an effort to anticipate changes in market prices of its investment portfolio is generally referred to as "market timing." Market timing can adversely impact the ability of the Adviser to invest assets in an orderly manner, which in turn may adversely impact the expenses and the performance of the Fund. These expenses are borne by all Fund shareholders, including long-term investors who do not generate such costs. Specifically, frequent trading may result in the Fund engaging in activities to a greater extent than it otherwise would, such as maintaining higher cash balances, using a line of credit and trading in portfolio securities, each of which may increase expenses and decrease performance. This occurs when market timers attempt to trade Fund shares when the NAV of the Fund does not reflect the value of the underlying portfolio securities.

To deter market timing and to minimize harm to the Fund and its shareholders, the Fund (i) charges a redemption fee of 1.00% on shares redeemed within sixty (60) days of purchase, and (ii) reserves the right to restrict, reject or cancel, without prior notice, any purchase order by market timers or by those persons the Fund believes are engaging in similar trading activity that, in the judgment of the Fund or the Adviser, may be disruptive to the Fund. The Fund will not be liable for any loss resulting from rejected purchase orders. No waivers of the provisions of this policy established to detect and deter market timing and other excessive trading activity are permitted that would harm the Fund and its shareholders or would subordinate the interests of the Fund and its shareholders to those of the Adviser or any affiliated person or associated person of the Adviser.

The Fund's Chief Compliance Officer ("CCO") reviews on an as-needed basis, as determined by the CCO in coordination with the Adviser and other service providers, available information related to the trading activity in the Fund in order to assess the likelihood that the Fund may be the target of market timing or similar trading practices. If, in its judgment, the Fund or the Adviser detects excessive, short-term trading, the Fund may reject or restrict a purchase request and may further seek to close an investor's account with the Fund. The Fund may modify its procedures from time to time without prior notice regarding the detection of excessive trading or to address specific circumstances. The Fund will apply its procedures in a manner that, in the Fund's judgment, will be uniform.

There is no guarantee that the Fund or its agents will be able to detect frequent trading activity or the shareholders engaged in such activity, or, if it is detected, to prevent its recurrence.

In order for a financial intermediary to purchase shares of the Fund for an "omnibus" account, in nominee name or on behalf of another person, the Trust will enter into shareholder information agreements with such financial intermediary or its agent. These agreements require each financial intermediary to provide the Fund access, upon request, to information about underlying shareholder transaction activity in these accounts and the Shareholder's Taxpayer Identification Number (or International Taxpayer Identification Number or other government issued identifier). If a shareholder information agreement has not been entered into by a financial intermediary, such financial intermediary will be prohibited from purchasing Fund shares for an "omnibus" account, in nominee name or on behalf of another person. If necessary, the Fund may prohibit additional purchases of Fund shares by a financial intermediary or by certain customers of the financial intermediary. Financial intermediaries may also monitor their customers' trading activities in the Fund. The criteria used by intermediaries to monitor for excessive trading may differ from the criteria used by the Fund. If a financial intermediary fails to enforce the Fund's excessive trading policies, the Fund may take certain actions, including terminating the relationship.

REDEMPTION OF SHARES

You may "redeem" or sell your shares on any day the Exchange is open, either directly through the Fund's transfer agent, BNY Mellon Investment Servicing, or through your broker-dealer. The price you receive will be the NAV next calculated after receipt of the request in good order. "Good Order" means that the redemption request is complete and includes all accurate required information including any medallion signature guarantees, if necessary. The Fund charges a redemption fee of 1.00% on proceeds of shares redeemed within 60 days following their acquisition (see "Redemption Fee").

Redemption Fee

The Fund charges a redemption fee of 1.00% on proceeds of shares redeemed within 60 days following their acquisition. The redemption fee will be calculated as a percentage of the NAV of total redemption proceeds. Those shares held the longest will be treated as being redeemed first and the shares held shortest as being redeemed last. The fee will be paid directly to the Fund and is intended to offset the trading costs, market impact and other costs associated with short-term money movements in and out of the Fund. This redemption fee is not intended to accommodate short-term trading and the Fund will monitor the assessment of redemption fees against your account. Please see "Market Timing and Frequent Trading Policy" above.

The 1.00% redemption fee will not be charged on the following transactions:

1. Redemptions on shares held through retirement plans (including, without limitation, those maintained pursuant to Sections 401, 403, 408, 408A and 457 of the Internal Revenue Code of 1986, as amended (the "Code") and nonqualified plans), unless the plan has the systematic capability of assessing the redemption fee at the participant or individual account level;
2. Redemptions requested following (a) the death of a shareholder, or (b) the post-purchase "disability" or "hardship" (as such terms are defined by the Code or the rules and regulations thereunder) of the shareholder or as required by law (i.e., a divorce settlement) provided that such death, disability, hardship or other event (i.e., a divorce settlement) occurs after the shareholder's account was established with the Fund;
3. Redemptions initiated by the Fund (e.g., for failure to meet account minimums, to pay account fees funded by share redemptions, in the event of the liquidation of the Fund, if your financial intermediary modifies or terminates its relationship with the Fund);
4. Shares acquired through the reinvestment of distributions (dividends and capital gains);
5. Redemptions in omnibus accounts where redemptions cannot be tracked to the individual shareholder; and
6. Redemptions in connection with periodic or automatic portfolio rebalancing arrangements of certain wrap accounts or funds of funds.

Redemption Policies

Payment for redemptions of Fund shares is usually made within one business day, but not later than seven calendar days after receipt of your redemption request, unless the check used to purchase the shares has not yet cleared. The Fund may suspend the right of redemption or postpone the date of payment for more than seven days during any period when (1) trading on the Exchange is restricted or the Exchange is closed for other than customary weekends and holidays, (2) the SEC has by order permitted such suspension for the protection of the Fund's shareholders or (3) an emergency exists, as determined by the SEC, making disposal of portfolio securities or valuation of net assets of the Fund not reasonably practicable. The Fund will automatically redeem shares if a purchase check is returned for insufficient funds and the shareholder's account will be charged for any loss. The Fund reserves the right to reject any third-party check.

Under normal market conditions, the Fund generally meets redemption requests through its holdings of cash or cash equivalents or by selling a portion of the Fund's holdings consistent with its investment strategy. The Fund generally pays redemptions proceeds in cash; however, the Fund reserves the right to honor certain redemptions "in-kind" with securities, rather than cash. The Fund is more likely to redeem in-kind to meet large redemption requests or during times of market stress.

TO REDEEM FROM YOUR ACCOUNT

By Mail:

To redeem your shares by mail:

- Write a letter of instruction that includes the name of the Fund, your account number, the name(s) in which the account is registered and the dollar value or number of shares you wish to sell.
- Include all signatures and any additional documents that may be required.

- Mail your request to:

Regular Mail:

Quality Dividend Fund
FundVantage Trust
c/o BNY Mellon Investment Servicing
P.O. Box 534445
Pittsburgh, PA 15253-4445

Overnight Mail:

Quality Dividend Fund
FundVantage Trust
c/o BNY Mellon Investment Servicing
Attention: 534445
500 Ross Street, 154-0520
Pittsburgh, PA 15262
(888) 201-5799

- A check will be mailed to the name(s) and address in which the account is registered and may take up to seven days.
- The Fund may require additional documentation or a medallion signature guarantee on any redemption request to help protect against fraud.
- The Fund requires a medallion signature guarantee if the written redemption request exceeds \$100,000, the address of record for the account has changed within the past 30 days or the proceeds are to be paid to a person other than the account owner of record.

By Telephone:

To redeem your shares by telephone, call Shareholder Services toll-free at (888) 201-5799. The proceeds will be paid to the registered owner: (1) by mail at the address on the account, or (2) by wire to the pre-designated bank account on the fund account. To use the telephone redemption privilege, you must have selected this service on your original account application or submitted a subsequent medallion signature guarantee request in writing to add this service to your account. The Fund and its transfer agent, BNY Mellon Investment Servicing, reserve the right to refuse any telephone transaction if they are unable to confirm to their satisfaction that a caller is the account owner or a person preauthorized by the account owner. BNY Mellon Investment Servicing has established security procedures to prevent unauthorized account access. Neither the Fund nor any of its service contractors will be liable for any loss or expense in acting upon telephone instructions that are reasonably believed to be genuine. The telephone transaction privilege may be suspended, limited, modified or terminated at any time without prior notice by the Fund or BNY Mellon Investment Servicing.

By Wire:

In the case of redemption proceeds that are wired to a bank, the Fund transmits the payment only on days that commercial banks are open for business and only to the bank and account previously authorized on your application or your medallion signature guaranteed letter of instruction. The Fund and its transfer agent, BNY Mellon Investment Servicing, will not be responsible for any delays in wired redemption proceeds due to heavy wire traffic over the Federal Reserve System. The Fund reserves the right to refuse a wire redemption if it believes that it is advisable to do so. You may also have your redemption proceeds sent to your bank via ACH. BNY Mellon Investment Servicing does not charge for this service; however, please allow 2 to 3 business days for the transfer of money to reach your banking institution.

Selling Recently Purchased Shares

If you wish to sell shares that were recently purchased by check, the Fund may delay mailing your redemption check for up to 15 business days after your redemption request to allow the purchase check to clear. The Fund reserves the right to reject any redemption request for shares recently purchased by check that has not cleared, and the Fund may require that a subsequent request be submitted. The Fund charges a redemption fee of 1.00% on proceeds redeemed within 60 days following their acquisition (see “Redemption of Shares — Redemption Fee”).

Late Trading

Late trading is the practice of buying or selling Fund shares at the closing price after the Fund’s NAV has been set for the day. Federal securities laws governing mutual funds prohibit late trading. The Fund has adopted trading policies designed to comply with the requirements of the federal securities laws.

TRANSACTION POLICIES

Timing of Purchase or Sale Requests

All requests received in Good Order by BNY Mellon Investment Servicing or authorized dealers of Fund shares before the close of regular trading on the Exchange, typically 4:00 p.m. Eastern time, will be executed the same day, at that day's NAV. Such orders received after the close of regular trading of the Exchange will be executed the following day, at that day's NAV. All investments must be in U.S. dollars. Purchase and redemption orders are executed only on days when the Exchange is open for trading. If the Exchange closes early, the deadlines for purchase and redemption orders are accelerated to the earlier closing time.

New York Stock Exchange Closings

The Exchange is typically closed for trading on New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

Investments through Financial Intermediaries/Nominees

If you invest through a financial intermediary or nominee, such as a broker-dealer or financial adviser (rather than directly through the Fund), certain policies and fees regarding your investment in the Fund may be different than those described in this Prospectus. In the event your financial intermediary modifies or terminates its relationship with the Trust, your shares may be subject to involuntary redemption unless you make arrangements to (a) transfer your Fund shares to another financial intermediary that is authorized to process Fund orders or (b) establish a direct account with the Fund's transfer agent by following the instructions under "To Open An Account." Financial intermediaries and nominees may charge transaction fees, may charge you a commission on your purchase, and may set different minimum investments or limitations or procedures on buying or selling shares; however, in the event that your financial intermediary modifies or terminates its relationship with the Trust and you chose to open an account directly with the Fund, you must meet the minimum initial investment amount or, if available, exchange your shares for shares of another class in which you are eligible to invest. The Fund will be deemed to have received a purchase or redemption order when an authorized broker, or if applicable, a broker's designee receives the order. It is the responsibility of the financial intermediary or nominee to promptly forward purchase or redemption orders and payments to the Fund. You will not be charged any additional fees by the Fund (other than those described in this Prospectus) if you purchase or redeem shares directly through the Fund's transfer agent, BNY Mellon Investment Servicing.

Contact your financial intermediary for specific information regarding the availability and suitability of various account options described throughout this Prospectus. Contact your financial intermediary for specific information with respect to the financial intermediary's policies regarding minimum purchase and minimum balance requirements and involuntary redemption, which may differ from what is described throughout this Prospectus.

Account Minimum

You must keep at least \$1,000 worth of shares (\$250 for IRAs) in your Class A or Class C account to keep the account open. If, after giving you 30 days' prior written notice, your account value is still below the account minimum due to your redemptions (not including market fluctuations), the Fund may redeem your shares and send you a check for the redemption proceeds. Institutional Class shares require a minimum balance of \$1,000,000.

Medallion Signature Guarantees

The Fund may require additional documentation for the redemption of corporate, partnership or fiduciary accounts, or medallion signature guarantees for certain types of transfer requests or account registration changes. A medallion signature guarantee helps protect against fraud. A medallion signature guarantee is required if the written redemption request exceeds \$100,000, the address of record for the account has changed within the past 30 days, or the proceeds are to be paid to a person other than the account owner of record. When the Fund requires a signature guarantee, a medallion signature must be provided. A medallion signature guarantee may be obtained from a domestic bank or trust company, broker, dealer, clearing agency, saving association or other financial institution that is participating in a medallion program recognized by the Securities Transfer Association. The Fund recognizes the following three medallion

programs: (i) Securities Transfer Agents Medallion Program (STAMP), (ii) Stock Exchanges Medallion Program (SEMP) and (iii) New York Stock Exchange, Inc., Medallion Signature Program (MSP). Signature guarantees from a financial institution that does not participate in one of these programs will not be accepted. Call Shareholder Services toll-free at (888) 201-5799 for further information on obtaining a proper signature guarantee.

Customer Identification Program

Federal law requires the Fund to obtain, verify and record identifying information, which includes the name, residential or business street address, date of birth (for an individual), social security or taxpayer identification number or other identifying information for each investor who opens or reopens an account with the Fund. Applications without the required information, or without any indication that a social security or taxpayer identification number has been applied for, will not be accepted. After acceptance, to the extent permitted by applicable law or its customer identification program, the Fund reserves the right to (i) place limits on transactions in any account until the identity of the investor is verified; or (ii) refuse an investment in the Fund or to involuntarily redeem an investor's shares and close an account in the event that an investor's identity is not verified. The Fund and its agents will not be responsible for any loss in an investor's account resulting from the investor's delay in providing all required identifying information or from closing an account and redeeming an investor's shares when an investor's identity cannot be verified.

Other Documents

Additional documents may be required for purchases and redemptions when shares are registered in the name of a corporation, partnership, association, agent, fiduciary, trust, estate or other organization. For further information, call Shareholder Services toll-free at (888) 201-5799.

SHAREHOLDER SERVICES

Your Account

If you have questions about your account, including purchases, redemptions and distributions, call Shareholder Services toll-free at (888) 201-5799 from Monday through Friday, 8:00 a.m. to 6:00 p.m., Eastern time.

Account Statements

The Fund currently provides the following account information:

- confirmation statements after transactions (except for certain automatic transactions, such as those related to automatic investment plan purchases or dividend reinvestments);
- account statements reflecting transactions made during the covered period (generally, monthly for Institutional Class shares, and quarterly or annually for other share classes);
- tax information, which will be mailed each year by the IRS deadline, a copy of which will also be filed with the IRS, if necessary.

Financial statements with a summary of portfolio composition and performance will be available at least twice a year.

The Fund routinely provides the above shareholder services, but may charge additional fees for special services such as requests for historical transcripts of accounts.

With the exception of statutorily required items, the Fund may change any of the above practices without notice.

Delivery of Shareholder Documents

To reduce expenses, the Fund mails only one copy of its Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, call Shareholder Services toll-free at (888) 201-5799 or, if your shares are held through a financial institution, please contact the financial institution directly. The Fund will begin sending you individual copies within 30 days after receiving your request.

DISTRIBUTIONS

The Fund will distribute substantially all of its net investment income quarterly and any net realized capital gains annually. The amount of any distribution will vary, and there is no guarantee that the Fund will make any distribution.

Distributions are payable to the shareholders of record at the time the distributions are declared (including holders of shares being redeemed, but excluding holders of shares being purchased). All distributions are reinvested in additional shares, unless you elect to receive the distributions in cash. Shares become entitled to receive distributions on the day after the shares are issued. If you invest in the Fund shortly before the ex-dividend date of a taxable distribution, the distribution will lower the value of the Fund's shares by the amount of the distribution and, in effect, you will receive some of your investment back in the form of a taxable distribution (see "More Information about Taxes — Distributions").

MORE INFORMATION ABOUT TAXES

Each shareholder and prospective investor's particular tax situation is unique, and, therefore, the tax information in this Prospectus is provided only for general information purposes and only for U.S. taxpayers and should not be considered as tax advice or relied on by a shareholder or prospective investor.

General. The Fund intends to qualify annually to be treated as a regulated investment company (a "RIC") under Subchapter M of the Code. As such, the Fund will not be subject to federal income tax on the earnings it distributes to shareholders provided it satisfies certain requirements and restrictions set forth in the Code, one of which is to distribute to its shareholders substantially all of its income and gains each year. If for any taxable year the Fund fails to qualify as a RIC: (1) it will be subject to tax in the same manner as an ordinary corporation and will be subject to tax at the corporate tax rates then in effect; and (2) all distributions from its earnings and profits (as determined under federal income tax principles) will be taxable as ordinary dividend income eligible for the dividends-received deduction for corporate shareholders and the non-corporate shareholder long-term capital gain rate for "qualified dividend income" and ordinary rates for all other distributions, except for those treated as a return of capital or substitute dividends with respect to dividends paid on securities lent out by the Fund. In addition, dividends paid on securities lent out by the Fund may not qualify for the dividends received deduction.

Distributions. The Fund will make distributions to you that may be taxed as ordinary income or capital gains (which may be taxed at different rates depending on the length of time the Fund holds its assets). The dividends and distributions you receive may be subject to federal, state and local taxation, depending upon your tax situation. Distributions are taxable whether you reinvest such distributions in additional shares of the Fund or choose to receive cash.

Unless you are investing through a tax-deferred retirement account (such as a 401(k) or an IRA), you should consider avoiding a purchase of Fund shares shortly before the Fund makes a distribution, because making such a purchase can increase your taxes and the cost of the shares. This is known as "buying a dividend." For example: On December 15, you invest \$5,000, buying 250 shares for \$20 each. If the Fund pays a distribution of \$1 per share on December 16, its share price will drop to \$19 (not counting market change). You still have only \$5,000 (250 shares x \$19 = \$4,750 in share value, plus 250 shares x \$1 = \$250 in distributions), but you owe tax on the \$250 distribution you received — even if you reinvest it in more shares and have to pay the tax due on the dividend, without receiving any cash to pay the taxes. To avoid "buying a dividend," check the Fund's distribution schedule before you invest.

Ordinary Income. Net investment income (except for qualified dividends and income designated as tax-exempt), distributions of income from securities lending, and short-term capital gains that are distributed to you are taxable as ordinary income for federal income tax purposes regardless of how long you have held your Fund shares. Certain dividends distributed to non-corporate shareholders and designated by the Fund as "qualified dividend income" are eligible for the long-term capital gains tax rates. Short-term capital gains that are distributed to you are taxable as ordinary income for federal income tax purposes regardless of how long you have held your Fund shares. In addition, certain qualified REIT dividends may be eligible for a deduction for non-corporate shareholders.

Net Capital Gains. Net capital gains (i.e., the excess of net long-term capital gains over net short-term capital losses) distributed to you, if any, are taxable as long-term capital gains (based on the Fund's holding period) for federal income tax purposes regardless of how long you have held your Fund shares.

Sale of Shares. It is a taxable event for you if you sell shares of the Fund. Depending on the purchase price and the sale price of the shares you sell, you may have a taxable gain or loss on the transaction. Any realized gain will be taxable to you, and, generally, will be capital gain, assuming you held the shares of the Fund as a capital asset. The capital gain will be long-term or short-term depending on how long you have held your shares in the Fund. Sales of shares of the

Fund that you have held for twelve months or less will be a short-term capital gain or loss and if held for more than twelve months will constitute a long-term capital gain or loss. Any loss realized by a shareholder on a disposition of shares held for six months or less will be treated as a long-term capital loss to the extent of any distributions of capital gain dividends received by the shareholder and disallowed to the extent of any distributions of tax-exempt interest dividends, if any, received by the shareholder with respect to such shares.

Returns of Capital. If the Fund's distributions exceed its taxable income and capital gains realized during a taxable year, all or a portion of the distributions made in the same taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable to the extent of each shareholder's basis in the Fund's shares, but will reduce each shareholder's cost basis in the Fund and result in a higher reported capital gain or lower reported capital loss when those shares on which the distribution was received are sold. If the return of capital distribution exceeds a shareholder's cost basis, the excess amount will be capital gain, assuming you held your shares as a capital asset, and will be long-term or short-term capital gain depending on how long you have held your Fund shares.

Medicare Contribution Tax. U.S. individuals with income exceeding \$200,000 (\$250,000, if married and filing jointly and \$125,000 if married and filing separately) will be subject to a 3.8% Medicare contribution tax on net investment income including interest (excluding tax-exempt interest), dividends, and capital gains. If applicable, the tax will be imposed on the lesser of the individual's (i) net investment income or (ii) the excess of modified adjusted gross income over \$200,000 (\$250,000 if married and filing jointly and \$125,000 if married and filing separately).

IRAs and Other Tax-Qualified Plans. One major exception to these tax principles is that a distribution on or the sale or exchange of shares held in an IRA (or other tax-qualified plan) will not be currently taxable unless the shares were acquired with borrowed funds.

Backup Withholding. The Fund may be required to withhold U.S. federal income tax on all taxable distributions and sales payable to shareholders who fail to provide their correct taxpayer identification number or to make required certifications, or who have been notified by the IRS that they are subject to backup withholding. The current backup withholding rate is 24%.

State and Local Income Taxes. This Prospectus does not discuss the state and local tax consequences of an investment in the Fund. **You are urged and advised to consult your own tax adviser concerning state and local taxes, which may have different consequences from those of the federal income tax laws.**

Non-U.S. Shareholders. Non-U.S. shareholders may be subject to U.S. tax as a result of an investment in the Fund. The Fund is required to withhold 30% tax on certain payments made to foreign entities that do not qualify for reduced withholding rates under a treaty and do not meet specified information reporting requirements under the Foreign Account Tax Compliance Act. This Prospectus does not discuss the U.S. or foreign country tax consequences of an investment by a non-U.S. shareholder in the Fund. **Non-U.S. shareholders are urged and advised to consult their own tax advisers as to the U.S. and foreign country tax consequences of an investment in the Fund.**

Basis Reporting and Holding Periods. A shareholder is responsible for tracking the tax basis and holding periods of the shareholder's shares in the Fund for federal income tax purposes. However, RICs, such as the Fund, must report cost basis information to you and the IRS when a shareholder sells or exchanges shares that are not in a tax deferred retirement account. The Fund will permit shareholders to elect from among several IRS accepted cost basis methods.

Statements and Notices. You will receive an annual statement outlining the tax status of your distributions. You may also receive written notices of certain foreign taxes and distributions paid by the Fund during the prior taxable year.

This section is only a summary of some of the important U.S. federal income tax considerations of taxable U.S. shareholders that may affect your investment in the Fund. This summary is provided for general information purposes only and should not be considered as tax advice and may not be relied on by a prospective investor. This general summary does not apply to non-U.S. shareholders or tax-exempt shareholders, and does not address state, local or foreign taxes. More information regarding these considerations is included in the Fund's SAL. All prospective investors and shareholders are urged and advised to consult their own tax adviser regarding the effects of an investment in the Fund on their particular tax situation.

FINANCIAL HIGHLIGHTS

The Financial Highlights tables are intended to help you understand the Fund's financial performance for the periods shown. The Fund's fiscal year runs from May 1 to April 30. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate at which an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been derived from financial statements audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's Annual Report. The Fund's 2024 Annual Report is incorporated by reference into the Fund's SAI and is available upon request by calling Shareholder Services toll-free at (888) 201-5799, or visiting the Fund's website at www.equitycompass.com.

FOR MORE INFORMATION

For additional information about the Fund, the following documents are available free upon request:

Annual and Semi-Annual Reports

The Fund's annual and semi-annual reports contain more information about the Fund's investments and performance including information on the Fund's portfolio holdings and operating results for the most recently completed fiscal year or half-year. The annual report includes a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year.

Statement of Additional Information (SAI)

The SAI contains more detailed information about the Fund and its policies. The information in the SAI, as supplemented from time to time, is incorporated by reference into this Prospectus. This means that the SAI, for legal purposes, is part of this Prospectus.

These documents will be available free of charge on the Fund's website at <https://www.equitycompass.com>. You can also get a free copy of these documents and other information, or ask us any questions, including information on how to purchase or redeem Fund shares, by calling us at (888) 201-5799 or writing to:
